## Summary

**Motivated, personable developer with ten years of experience** and a successful history of tackling technology challenges. Creative problem-solver that achieves quick results by thinking outside the box and using standards-based code. Able to envision user needs of multiple generations and approaches to technology. Brings back-end logic and understanding to front-end code and design. Passionate about aiding users and companies to achieve their goals through innovative solutions.

**Flexible and versatile – able to maintain a sense of humor under pressure.** Thrives in collaborative environments and always receptive to feedback. Looks for ways to improve both individually and company offerings. Enjoys mentoring junior developers and encouraging them to reach new levels of their craft.

## Technical Skills

- |              |              |           |
|--------------|--------------|-----------|
| ◆ Backbone   | ◆ MySQL      | ◆ React   |
| ◆ CSS3       | ◆ Node.js    | ◆ Ruby    |
| ◆ Ember      | ◆ PHP        | ◆ Sinatra |
| ◆ HTML5      | ◆ PostgreSQL |           |
| ◆ JavaScript | ◆ Rails      |           |

## Experience

### ADP

3/17-6/17

*React JS Consultant (Contract-position)*

Architected a drag-and-drop, WYSIWYG desktop application for creating page layouts which compiled into a JSON specification  
Plain JS and React in the front end, Node JS and Electron in the backend  
Trained up three junior developers in JavaScript, React, and Git  
Helped to define and implement JS and Git best practices

### Remine

10/16-2/17

*UI/UX Developer (Contract-position)*

Completed front-end development on version 1.0 of real estate analytics app  
Developed website from mock-ups using Bootstrap [remine.com](http://remine.com)  
Transitioned codebase from CSS to SCSS  
Advised senior staff on best-fit frameworks and app structure

## Achievements

**Toccoa Falls  
College, 2003**

*B.S. Radio and  
Television  
Broadcasting*

**Patent for  
Transcoding  
Video System**

*Pat. No.  
9,565,430 (2012)*

## Experience (continued)

### Johnson Group

5/16-Present

*UI/UX Consultant (Contract On-Demand)*

I advise this local marketing agency on user experience for their clients' sites

### Rezli

4/16-10/16

*UI/UX Developer (Contract-position)*

Responsible for development and strategy of the front-end for rezli.com

Worked 100% remotely (Slack & zoom.us)

Used HTML, Slim Templates, Ruby on Rails, CSS/SCSS, JavaScript, React

### CodeScience

2015-16

*UI Engineer*

Created Single-Page Applications for administrative interfaces, tabular data (re-made Excel in a SPA basically), and a community blog platform

Worked individually and with a team, 90%+ remotely

### OrthoBanc

2014-15

*Front-End Engineer*

Created a database administration GUI using Ember

Provided API creation support using Node and Sails.JS

Created a landing page for a new product using Bootstrap

### Firma 8

2009-14

*Senior Technical Consultant and Lead Developer*

Lead a team of 3 creating a real-time, translating chat system for call centers

Created an e-learning system, a live-streaming video platform, and a translation plugin for Adobe InDesign

Created real-time website and document translators using Rails and Sinatra

Created a church-management and member-communication solution using Sinatra

Produced product demo videos, including screencasts, copywriting, and video editing

### Freelance Work

*Webmaster and App Developer*

Architect and developer on an app for automatic, template-based website creation

Created various websites for personal and small-business use

Collaborated on API design for a world-wide medical assistance organization
