## Professional Summary

---

**Motivated, personable developer with over ten years of experience** and a successful history of tackling technology challenges. Creative problem-solver that achieves quick results by thinking outside the box and using standards-based code. Able to envision user needs of multiple generations and approaches to technology. Brings back-end logic and understanding to front-end code and design. Passionate about aiding users and companies to achieve their goals through innovative solutions.

**Flexible and versatile** - able to maintain a sense of humor under pressure. Thrives in collaborative environments and always receptive to feedback. Looks for ways to improve both individually and company offerings. Enjoys mentoring junior developers and encouraging them to reach new levels of their craft.

## Skills

---

- JavaScript
- React
- Ember
- CSS/SCSS
- HTML
- Node.JS
- Ruby/Rails

- SQL

## Work History

---

### Front End Architect

07/2017 to 06/2018

**InfoArmor** – Scottsdale, AZ (Remote)

- Lead a team of five in a complete remake of InfoArmor's Identity Theft Prevention platform.
- Architected the front end for a new login and authentication system.
- Used React, MobX, JavaScript, CSS, and HTML
- Developed work-flow charts and diagrams to ensure compliance with client deadlines.
- Provided methodologies for object-oriented software development and efficient database design.

**Senior React Consultant (Contract)**

03/2017 to 06/2017

**ADP** – Alpharetta, GA

- Architected a drag-and-drop, WYSIWYG desktop application for creating page layouts which compiled into a JSON specification
- Plain JavaScript and React in the front end, Node JS and Electron in the backend
- Trained up three junior developers in JavaScript, React, and Git
- Helped to define and implement JavaScript and Git best practices

**UI/UX Developer (Contract)**

10/2016 to 02/2017

**Remine** – Richmond, VA (Remote)

- Completed front-end development on version 1.0 of real estate analytics app
- Developed website from mock-ups using Bootstrap (remine.com)
- Transitioned codebase from CSS to SCSS
- Advised senior staff on best-fit frameworks and app structure

**Front End Developer (Contract)**

04/2016 to 10/2016

**Rezli** – Chattanooga, TN (Remote)

- Responsible for development and strategy of the front-end for rezli.com
- Used HTML, Slim Templates, Ruby on Rails, CSS/SCSS, JavaScript, React
- Worked in an Agile environment to maintain project timelines and utilize available resources.

**UI/UX Consultant**

05/2016 to Current

**Johnson Group** – Chattanooga, TN

- I advised this local marketing agency on user experience for their clients' sites.
- Produced ad hoc reports and documents for senior team members.
- Verified data integrity and accuracy.

**UI Engineer**

2015 to 2016

**CodeScience** – Chattanooga, TN (Remote)

- Worked as part of a software agency to develop work for our clients
- Created Single-Page Applications for administrative interfaces
- Created a tabular data manipulation app (re-made Excel in a SPA basically)
- Helped Salesforce.com update their community blog platform

**Front End Developer**

2014 to 2015

**OrthoBanc** – Chattanooga, TN

- Created a database administration GUI using Ember and Bootstrap
- Provided API creation support using NodeJS and Sails.JS

## Senior Technical Consultant and Lead Developer

2009 to 2014

### Firma8 – Chattanooga, TN

- Lead a team of 3 creating a real-time, translating chat system for call centers
- Created an e-learning system, a live-streaming video platform, and a translation plugin for Adobe InDesign
- Created real-time website and document translators using Rails and Sinatra
- Created a church-management and member-communication solution using Sinatra
- Produced product demo videos, including screencasts, copywriting, and video editing

## Webmaster and App Developer

03/2009 to Current

### Freelance – Chattanooga, TN

- Architect and developer on an app for automatic, template-based website creation for political candidates
- Collaborated on API design for a world-wide medical assistance organization
- Collaborated with clients from concept through final delivery of product or service.
- Consistently met deadlines and requirements for all production work orders.

## Education

---

**Bachelor of Science:** Radio and Television Broadcasting

2003

**Toccoa Falls College** - Toccoa Falls, GA

## Accomplishments

---

Patent for Transcoding Video System - Pat. No. 9,565,430 (2012)
